Your Guide to Excellence in English Language Teaching!

Introduction

Welcome to **Global Language Training – Global Teaching Skills test**. We are a UK-based company that has become your gateway to a world of opportunities in English language teaching and English language proficiency exams. Our comprehensive certification exams, courses and professional development services are designed to empower you to reach your full potential as a teacher and positively impact your students' lives.

WHAT IS GTS – GLOBAL TEACHING SKILLS?

GTS is an internationally accredited English language teaching certification designed for aspiring and experienced EFL/ESL teachers around the world. This certification evaluates 10 domains based on three international teaching frameworks (British Council – CPD Teaching Framework, TESOL International Organization, Cambridge Teaching Framework) accepted and used around the world. Elevate your teaching career by getting your GTS certification today!

Purpose of the Exam

The primary aim of this exam is to ensure that English language teachers possess the necessary skills and knowledge to provide high-quality lessons. By aligning with the leading teaching frameworks, we aim to promote consistency and excellence in teaching standards globally.

This exam serves multiple purposes:

Professional Validation:

Offers a credible certification that validates a teacher's expertise and proficiency.

Career Advancement:

Helps teachers in advancing their careers by providing a recognized and respected qualification.

Educational Excellence:

Ensures that teachers are equipped to deliver the highest standards of education, thereby improving learner outcomes.

Exam Design and Structure:

Our exam is structured around ten critical teaching domains derived from the mentioned frameworks. These domains represent the core competencies essential for effective English language teaching:

Lessons Planning and Courses:

This domain evaluates a teacher's ability to design coherent and engaging lesson plans and courses.

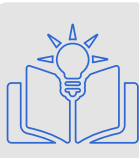

Understanding Learners:

Focuses on assessing the teacher's ability to understand and cater to the diverse needs, backgrounds, and learning styles of students.

Managing the Lesson:

This area measures the ability to manage classroom activities and dynamics effectively.

Knowing the Subject:

Tests the depth of knowledge in English language and linguistics.

Managing Resources:

Evaluates the proficiency in selecting and utilizing appropriate teaching resources.

Assessing Learning:

Measures the ability to assess and provide feedback on student progress and performance.

Integrating ICT

Tests skills in integrating Information and Communication Technology into teaching practices.

Taking Responsibility for Professional Development

Focuses on a teacher's commitment to their own professional growth and development.

Using Inclusive Practices:

Assesses the ability to implement inclusive teaching strategies that support all learners.

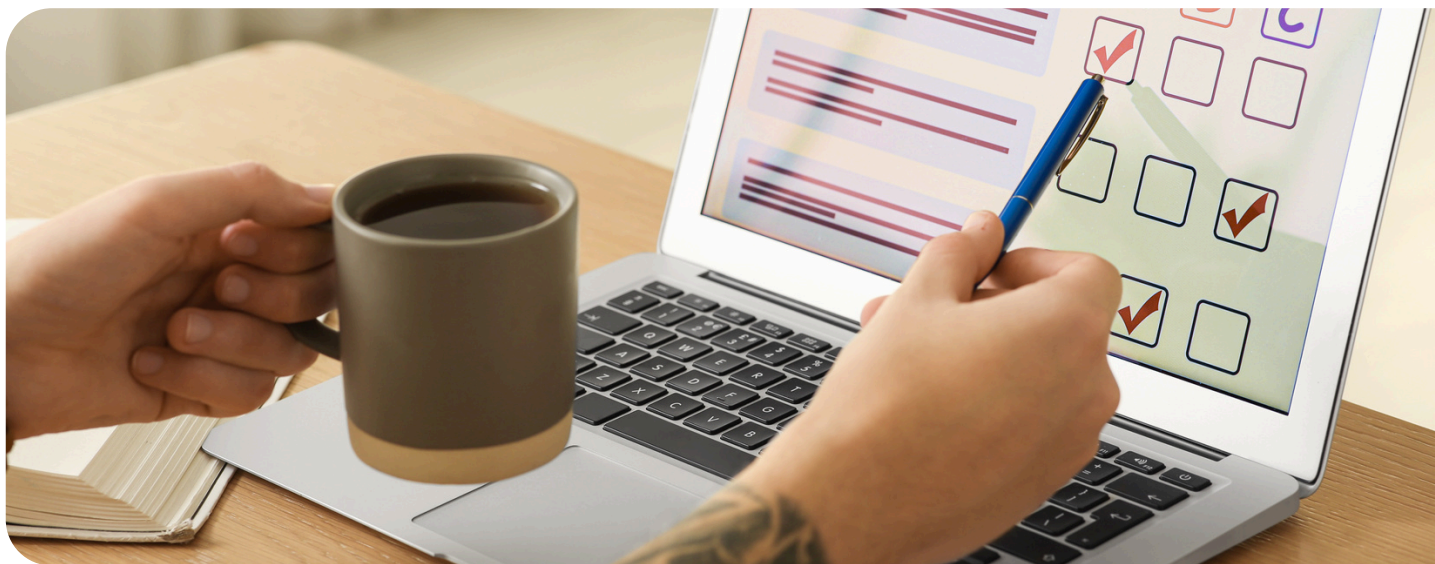

Promoting 21st Century Skills:

Evaluates how well a teacher can incorporate skills like critical thinking, creativity, and collaboration into their teaching.

Exam Info

The exam consists of 100 questions, covering all ten domains. These questions are designed to not only test multiple-choice knowledge but also higher-order thinking skills. This approach ensures a thorough assessment of both fundamental and advanced teaching competencies.

Applications for Institutions and Organizations

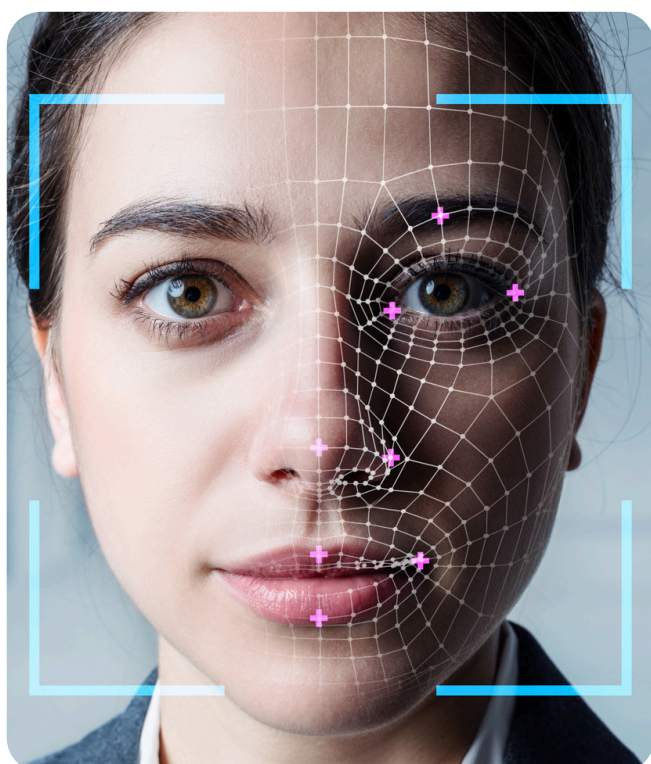

This exam is not only beneficial for individual teachers but also serves as a valuable tool for academic institutions and government organizations.

ACADEMIC INSTITUTIONS:

The certification can be used as a prerequisite for hiring teachers, ensuring that new hires meet high standards of teaching proficiency. It can also show how much knowledge teachers have in each domain.

GOVERNMENT ORGANIZATIONS:

The exam can be utilized to test the current level of teaching skills among their teachers, aiding in professional development and ensuring consistent teaching quality across the board.

AI & HUMAN PROCTORING

To ensure the highest standards of security and integrity, we employ AI proctoring during the exam.

This advanced technology monitors the test-taking process, detecting any irregularities or suspicious activities in real-time.

By utilizing AI proctoring, we not only safeguard the exam's credibility but also add significant value to the certification, assuring academic institutions and government organizations of its authenticity and reliability.

Informative Dashboard

IMMEDIATE RESULTS AND ACTIONABLE INSIGHTS FOR TESTING CENTERS!

Test takers receive immediate results through our informative dashboard, allowing for prompt feedback and insights into their performance. Results will show how each candidate did on each individual domain and an average of all ten domains. Each certificate can be verified on our website and will have a picture and a QR code for added security.

BENEFITS OF GTS – GLOBAL TEACHING SKILLS TEST

There are many benefits to becoming a GTS Global Teaching Skills certified teacher, including:

- Increased earning potential
- Enhanced career opportunities
- Greater job security
- Improved teaching skills and knowledge
- Demonstrated commitment to professional development
